# OUR JOURNEY INPHOTOS

It started a lot earlier than most know. Let's go back to 2015. Nik and Rosalina met on a sunny week day at Nik's job. As two individuals met they went on life as friends, but never saw what would happen and how their lives would become one.

## NIK

Rosalina is an adventurous woman who loves her vacations. If it is a sight to see Rosalina will want to see it. She will plan something for a week or a weekend, but keeps it fun. She will always find a way to get her way.

## ROSALINA

Nik is the man that every father wants for their daughter. He is hard working, a go getter, and always making sure that family is his number one priority. With Nik being such a hard worker he never really vacationed. That all changed when he and Rosalina started dating. Nik has been on more vacations in the past year and a half, than he has his whole life. Nik is now the one asking "when's our next vacation?"
